Hsin-sheng Pao.ELECTRIC POWER TO BE INCREASED IN TAIWAN

The Taiwan Electric Power Company will concentrate this year on increasing its supply of electric power. To this end, the company has allotted 360 million yuan for reconditioning Kiyomizu Plant No 1. Work will be completed by the end of April 1949, and the plant will be able to furnish 7,000 kilowatts.

The Katsune Plant has been fully restored and can generate 600 kilowatts [sic].

The Kikkiri Plant reservoir will be repaired with one million US dollars received through the ECA. When the machinery purchased from the US is installed in this plant, it will be able to generate up to 32,000 kilowatts [sic].

The Tai-nan Plant will be repaired in October 1949. Machinery will be brought in to enable the plant to generate 400 kilowatts.
